SPEED LAB BIO

EASY TO USE FOR A PROFESSIONAL LOOK

- Select your photos and the number of prints using the 27" multi-touch screen
- With or without white borders 4'x6 and 8'x12'
- Wide selection of fun backgrounds to customize your photos: frames, calendars, greeting cards, collages
- Integrated editing software: crop, rotate, zoom in & out, black and white, sepia, colour intensity and red eye removal

TRANSFER PHOTOS FROM YOUR SMARTPHONE

- The Photo-Me app enables you to transfer selected photos from smartphones, Facebook or Twitter directly to the Kiosk via WIFI.

SOCIAL NETWORK CONNECTION

- Upload and print from your Facebook, Twitter (subject to a 3 G or installation of an ADSL line). A major advantage to capture a younger clientele.

USER FRIENDLY INTERFACE

- Thanks to our latest software technology and user-friendly interface, a 3D visual of the final product will be displayed on screen for customers to review before placing the order.

SPEEDLAB® BIO

Our latest generation of digital printing kiosks

EASY TO USE FOR A PROFESSIONAL LOOK

- Select your photos and the number of prints using the 27" multi-touch screen
- With or without white borders 4x6"
- Wide selection of fun backgrounds to customise your photos: frames, calendars, greeting cards, collages...
- Integrated editing software: crop, rotate, zoom in & out, black and white, sepia, colour density, red eye removal and many more editing options.

TRANSFER PHOTOS FROM YOUR SMARTPHONE

- The Photo-Me app enables you to transfer selected photos from smartphones, Facebook or Instagram directly to the kiosk via Wi-Fi.

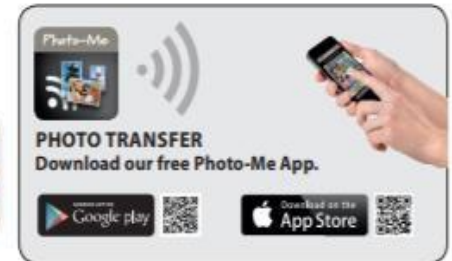

SOCIAL NETWORK CONNECTION

- Upload and print from your Facebook, Instagram, Twitter etc (subject to a 3G or installation of an ADSL line). A major advantage to capture a younger clientele.

NEW

- Photogifts will soon be available to order from the kiosk. A new software is being developed for customers to personalise gift items with their own photos. The selection will include mugs, canvases, posters, jigsaws, acrylic panels, magnets and keyrings.

Thanks to our latest software technology and user-friendly interface, a 3D visual of the final product will be displayed onscreen for customers to review before placing the order.
